

We are proud to present the 2010 edition of the Utrecht Summer School. Utrecht Summer School offers a broad selection of over 100 courses in virtually all disciplines. In 2009 Utrecht Summer School attracted over 1500 students from over 75 different countries. The programme is characterised by strong, academic courses in a variety of subjects. For most of the courses ECTS credits are rewarded.

The summer programme is bound to contain interesting courses for everyone. Courses on European Culture, Conflict Studies and Art History are specially designed for all bachelor students that show a serious interest in these issues. Psycholinguistics, Theoretical physics and Juvenile justice are intended for specialized bachelor or young master students. But also PhD students and young professionals will find an interesting offer.

The Utrecht Summer School aims at providing its participants with an unforgettable stay in Utrecht and the Netherlands. Therefore, parallel to the study programme a social programme has been set up including excursions, sports, social gatherings and festivities. To give you an impression, last year's programme comprised city trips to The Hague and Maastricht, barbecues, access to sports facilities and trips to our renowned museums.
